Science Week 2024

11th-15th March

Dear Families,

We are currently putting together plans for another exciting Science week and we need your help.

Parents with a Science/ Technology based job/profession

Following previous success, we are planning a 'What is a Scientist' day on Friday 15th March. As part of the impact of our Science curriculum we would like our children to know how their interest in Science/Technology can be developed into a career.

If your job involves Science and Technology and you would be happy to come into school on this day and have a chat about what you do with one or more classes we would love to see you. We are keen to bust the myth that people working in Science always wear lab coats and do things with test tubes! So we would love to hear from anyone who is an electrician, architect, builder, vet, nurse, doctor etc. as well as anyone who might wear a lab coat and does do things with test tubes! If you have assisted us with this before we'd love to have you back.

We do find that children's learning is greatly enhanced by having visitors coming into school so if you are interested and could spare an hour or so on this day, please email me via the school office admin@stmore.herts.sch.uk and it will be forwarded to me. You are not committed to anything by emailing and I'm more than happy to have a chat with anyone who might be interested.

Parent volunteers

We are looking for parent helpers on Monday 11th March for the morning and Tuesday 12th and Friday 15th March morning and afternoon to support us with some Science workshops we are holding with an outside provider. In order for these to go ahead we will need 3 or 4 extra adults per session. If you are able to give up a morning or afternoon of your time on these days we would be hugely grateful. I know that parents who have kindly helped us before have found these sessions really enjoyable and rewarding. Please email me via the office admin@stmore.herts.sch.uk with your availability.

Many thanks in advance,
Rosemary Simpson
Science Subject Leader
